

TAKE THE NYS INTERNET ACCESS SURVEY BY 12/31/2021!

The State and Federal Governments are making significant funds available to ensure high speed internet service (broadband) is available to all New York residents and businesses. The **New York State Department of Public Service** has hired **ECC Technologies** to prepare accurate maps of existing broadband availability statewide.

To ensure those maps are accurate and funding is spent where it is really needed, Ontario County is encouraging all residents and businesses to report their existing internet access speeds (or lack thereof) by taking a short survey prepared by ECC. If you have internet access at your home or business, you can complete the survey, including a speed test, from home using this link:

www.empirestatebroadband.com

If you don't have internet access, we especially need you to complete the survey! Visit your local library or use the QR code below to take the survey (select the option 'without speed test') on your smart phone (without taking the speed test).

You can also request a paper copy of the survey by calling the Ontario County Planning Department at (585) 396-4455. All responses are confidential!
